Walmart/Help Center/The Walmart Site and App ExperienceOrder everything from groceries to gadgets using Walmart.com or the Walmart app. Take advantage of the new features that make shopping simpler while saving you time and money.How to get your itemsYou have three ways to order your items:Pickup: Pickup your order curbside at a nearby store.Delivery: We'll bring your order to your home from a store. (Fees may apply)Shipping: Your order will be shipped fast via UPS, FedEx, or another carrier.Pickup and Delivery from storeSelect a nearby store and timeslot to pick up your items, or we can deliver your order right to your home. How it works:Sign into your Walmart account.On the homepage, select How do you want your items?Under How do you want your items select Pickup or Delivery.Select Delivery to check to see if your address can receive Delivery services.If your address is within range of a store that offers Delivery services, the website or app will list those stores. You can choose a store from the list and then select Save As My Store.If no stores are listed, the address is not within range of Delivery services from a store. You must choose Shipping or Pickup to place an order.Reserve a Pickup/Delivery time.Add items to your order.Not all items are available for Pickup and Delivery.Select Checkout under the Pickup and delivery options section of your cart.Select Checkout all items to place an order for all items, both Pickup/Delivery and shipping. Check out by the time displayed to keep your reservation.If you order an item that isn't available for pickup and delivery from your local store, we'll ship it to you. We group shipped items separately in your cart and they ship separately from your reserved pickup or delivery order. Look for availability info on the item page and search results page.Find what you needUse search to find and find items, including groceries, and filter by how and when you want them.How it works:Sign into your Walmart account.Enter an item in the Search bar at the top of your screen.On the Search results page, filter by how and when you want to get items:Need it fast: use this filter to show items that are available for your time preference.Pickup & shipping: use this filter to show just the items that are available for your preference.Pickup, Delivery and Shipping FeesFees apply to some methods, and you can see any fees from your cart.Pickup: Pick up orders over \$35 for free. Orders under the \$35 minimum have a below order minimum fee.Standard Delivery from store: \$9.95 delivery fee applies.Shipping: Orders under the \$35 order minimum have a below order minimum fee of \$6.99.We waive the fee for Walmart+ customers. Express delivery: \$10 Express fee applies to all orders in addition to the \$9.95 standard delivery fee.3 hr. or less delivery: \$6 fee applies to all orders.\$9.95 standard delivery fee applies.Drone delivery: \$19.99 delivery fee applies to all drone delivery orders. Walmart+ members pay zero drone delivery fees.Learn about Drone DeliveryExtra Shipping fees:Freight Items (items that are heavy or oversized) have separate surcharges.Marketplace items may have separate shipping charges but count toward the \$35 minimum amount for free shipping from Walmart.Pharmacy, photo, wireless and tires don't count toward the \$35 minimum amount and don't ship for free.APO/FPO military addresses may have separate charges.Hawaii, Alaska, US Territories, and Overseas Locations: Items that Walmart sells and ships have added shipping fees when we ship to these locations.You can check the shipping fees for the item by adding it to the cart. There will be a separate line in the Payments section for this fee.Bag fees: Certain states or local municipalities may charge bag fees to encourage the use of reusable bags. You can visit Single-Use Bag Policy to learn more.Colorado (CO) Retail Delivery Fee: There is an added retail delivery fee of \$0.28 for all deliveries by motor vehicle in Colorado. We charge this delivery fee within the state of CO for any item(s) that are subject to sales tax or use tax. For more details, you can visit Temporary Holds and Charges.Mobile Money ServicesWalmart offers money services in-store. Visit your store's Money Center or Customer Service counter for these services:Bill PayMoney TransfersCash ChecksMoney Services are not yet available in the app. Uses item details. We offer Every Day Low Prices on TVs, laptops, cell phones, tablets and iPads, video games, desktop computers, cameras and camcorders, audio, video and more.Computers: Desktops, Laptops, iPads and TabletsThe first thing to think about when considering a new computer is whether you want a desktop, a laptop or a tablet. If you plan to use your computer primarily in one location, like a home office, a desktop computer may be your solution. You can get a more powerful computer for your money, and you will have more upgrade options should you decide to expand. Plus, you can get a larger monitor (or two) and arrange your keyboard in a way that's ergonomically optimal for you.If you need a portable computer, however, a laptop can still be very powerful and affordable, and you can always connect it to a separate monitor and keyboard when you're back at your desk.As a third option, if you find that you use your computer mostly for email, web browsing and watching videos, you may be able to get away with using a tablet as your primary computer. Add a keyboard and you gain most of the functionality of a standard laptop. Touchscreen laptops are yet another great way to get the best of both worlds.You should also consider the speed and processing power you need. Single- and dual-core processors are OK for basic functions like sending and receiving email and doing some simple web browsing, but you'll want a quad-core computer if you do a lot of gaming or video streaming.TVsIf you're shopping for a new TV, the first thing to consider is how much space you have available. Then, think about how you'll be using it. Whether you're playing video games or watching a sporting event or a movie, you'll want to look for a TV with the technology to support what you love.If you're an avid gamer, you'll likely want an HD display to make games look their best. Shop for a TV with a resolution of 720p, 1080p or the impressive 2160p available on the 4K Ultra HDTVs. To keep up with the breakneck speed of today's video games, you'll also need a response time under six milliseconds and a refresh rate of at least 120 hertz.If you're an avid sports fan whether you're watching football, basketball, baseball, soccer or any other sport high-definition digital visuals are especially important. Look for a TV with a 1000:1 static contrast ratio to enjoy rich blacks, bright whites and vibrant colors. Watching sports is better when everyone can see no matter where they're sitting, so you'll also want a TV that offers a wide viewing angle.For film buffs and TV fanatics, a smart TV is a great option. It will let you stream content from providers like Netflix, YouTube, Hulu and Vimeo, providing access to a huge collection of movies and shows.Cell PhonesWe understand how important it is for you to stay connected with your friends, family and career. That's why there's something for everyone, with an extensive selection of unlocked, contract and no-contract cell phones and plans available.If you're trying to decide what phone and plan are best for you, start by choosing a carrier that covers your local area, then consider their services and the number of minutes you are going to need. Many providers offer discounted monthly rates that include voice, text and data. Signing up for a fixed-term contract (usually for one or two years) will often get you a great price on a phone, but if you don't want to make that long-term commitment, you might want the flexibility of a prepaid or no-contract phone. You can buy instant prepaid minutes and data at Walmart.com whenever you need them, so you never have to worry about coming up short.With a wide selection of phones, including iPhone and Android smartphones, it's easy to find a device with the features you are looking for. There are also cell phone accessories, including cases, headsets, chargers, Bluetooth devices, car mounts and more.For extra savings on your electronics, you may want to consider a refurbished device. These are typically open-box returns from customers who never used the product. Each item can be different. You can also search for special offers, such as Rollbacks or Clearance items.Walmart.com lets you sort electronics by price, customer rating or features, so finding the right device for you is a breeze. Save Money. Live Better.
